## Coal-bed methane Solution

Coal-bed methane power generation in Linfen, Shanxi, China

Located in Linfen city, Shanxi Province, CNPC Liaohe Oilfield's CBM power generation project uses 8\*250kW (total power 2MW) container-type gas generating units. The power generated by the units is integrated into the local oilfield grid to provide power for drilling and pumping units in the surrounding area.

### Key technical data

Fuel	Coal-bed methane
Unit Mdel	8×K19
Power	2000KW
Commissioning	2018
